VOL. XXV, NO. 283 GAINESVILLE, FLORIDA, WEDNESDAY, FEBRUARY 10, 1909 TEN CENTS A WEEK

ONE JUROR IS NEEDED TO TRY COOPER CASE

Former Populist Candidate for Governor Excused From Serving on Jury.

NASHVILLE, Tenn., Feb. 9.—The nineteenth day closed with the jury still incomplete in the case of the State against Col. Duncan B. Cooper, Robin J. Cooper and John D. Sharpe, charged with the murder of former Senator E. W. Carmack.

One juror, the eleventh, in the person of W. A. Adcock, a young farmer, was sent into the box. Before he was secured 221 talesmen were examined. Of these only seven were able to qualify and six of these were challenged peremptorily. The State now has left three such challenges and the defense 36. There are 200 names yet available in the present venire, from which an effort will be made to secure the twelfth juror.

One a Would-Be Governor.

Most of the members of this venire live in remote parts of the country, where newspapers are seldom read because of illiteracy there. The few from Nashville and vicinity cannot qualify as jurors because of having read the testimony at the application for bail.

There was yesterday the usual sprinkling of loafers who find the warm court room and comfortable chairs a delightful resting place during the cold wave. These men and boys come early and stay until put out at night. Some read papers nearly all day. Others sleep peacefully at times, but none pay a great deal of attention to the court proceedings. A. L. Mims, a talesman, excused because he had formed an opinion, was once a candidate for Governor on the Populist ticket.

The Father of Eight.

The fourth man in the second panel, D. M. Bannister, admitted that his eye sight was failing, but proudly added:

"But I kin see to shoot a rifle jest as good as I ever could."

Asked how many children he had, he replied.

"Ef they be all livin' now, and they wuz when last I heard from 'em, I've got eight."

The State challenged Bannister.

Joe Templeton, a farmer who can neither read nor write, had not heard that Carmack was killed and did not know the defendants. His clothing hung in tatters from his body and he had not been shaven for weeks. The State readily accepted him as a juror, but the defense after long deliberation, excused him.

It was late, before the eleventh juror, W. A. Adcock, was accepted.

Efforts to secure another juror failed and court adjourned with one place in the box still vacant.

6. Five minute talk by a member of a woman's club, or other woman's society, on "What Mothers Want Boys and Girls to Do That They May Keep Well."

School: "Sleep in the Fresh Air," "Work in the Fresh Air," "Play in the Fresh Air," "Live in the Fresh Air."

All—"Prevention is better than cure, and much cheaper."

SENATOR TILLMAN MAY WIN HIS FIGHT ON CRUM

Is Being Aided in His Effort to Defeat Confirmation By Senators From California.

WASHINGTON, Feb. 9.—Under the guise of considering the nomination of Dr. W. D. Crum, the negro collector of customs at Charleston, S. C., reappointed by President Roosevelt, the Senate, in executive session yesterday, discussed the Japanese question. Incidentally the discussion turned upon the reference to Senator Perkins by President Roosevelt, in a telegram to Gov. Gillett of California, in which he said that the Senior California Senator had hampered the administration in its efforts to build the navy, yet now "advises a policy of wanton insult."

Reference to this statement was made by Senator Tillman, colleague of Senator Perkins on the naval affairs committee, and indignation was shown by other Senators because of the attack upon Mr. Perkins.

Both California Senators took part in the discussion. Senator Perkins made a statement to the effect that he had not been asked by the President to participate in the conferences that have been held concerning the Japanese situation in California. He said that he could not understand why the President should intimate that he tried to stir up the sentiment in California in opposition to the President. He stated that his position had been on the subject of a big navy, declaring that he had always been in favor of a steady growth of the navy, even though he was against the President's four battleship program last session.

Senator Flint declared that he had not participated in the conference at the White House until he was asked to serve as the intermediary between the administration and the Legislature. He made it clear that he did not approve of the criticism of his colleague.

While it is becoming apparent that Collector Crum cannot be confirmed at the present session, it is also evident that the case is being used as a "buffer" for the legislation which the leaders do not intend shall be passed. Senators Tillman, Frazier and Gary made extended speeches yesterday on the rate question in the South.

Mr. Gary talked of the Crum case in particular, and against the policy of placing negroes in important official positions where it is necessary for whites to come in contact with them, and especially in cases where practically all of the business of an office is transacted by white people.

JUDSON NOTES.

JUDSON, Feb. 7.—R. S. Tucker went to Trenton today to ship his cotton. He says he has 51 bales and he bought it in 1907 and paid 25 to 30 cents per pound for it. He has had it now going on two years for 35 cents, but he has decided to ship it to Savannah and says that he will be glad to get 20 cents net for it. Besides the loss on the cotton he has paid out about $80 storage and insurance on it.

J. W. Adams attended the U. S. court in Gainesville. W. W. Weeks was summoned there on the jury, but as he was holding the office of justice of the peace they released him.

This part of the country is getting very dry.

The late cold never hurt us much, as we never had anything for it to hurt. A few small gardens of "greens" were scorched a little, but the drouth is doing us the most harm. The land is getting hard to break and it will soon be planting time. If it does not rain soon we cannot get crops up. The wells are going dry and some shallow pumps will have to be sunk deeper.

Has Changed Location.

Sam Leonard, who has been making Ocala his headquarters for the past two years, has been transferred to Tampa, which place he will make his future home. He has a large circle of friends throughout the State who wish him well and trust that he will be pleased with his new headquarters.

What Was Transpiring in Gainesville in 1876

(Gainesville Times, July 6, 1876.)

Ex-Congressman Walls has taken time by the forelock and entered the field for the State Senate in this district. His haste evinces a desire to get a good running start of "Little Dennis," whose tactics and strength he by no means despises.

City Council convened June 23, Present: T. F. King, Jas. Doig, A. H. Leonard, J. H. Roper, A. D. Mayo, M. Endel. By permission, J. C. Gardner read a communication from the mayor.

Blackberries are becoming scarce.

The trees on our sidewalks need trimming. Can't the proper authorities have it done?

Cukes have about played out, and now melons are the rage.

The weather has been unusually warm and sultry for a week past.

A large number of our citizens have left during the last two weeks for North, the Centennial Exhibition being the great point of interest and attraction.

Work is rapidly progressing upon the new hotel, and when the traveling season opens there will be ample and elegant accommodations for visitors and invalids.

No demonstrations of any kind were indulged in by the white portion of our community on the 4th of July, except the delivery of a historical sketch of Alachua county by Mr. O. A. Myers, by invitation from the citizens.

E. C. F. Sanchez, Esq., and lady, left on Tuesday, the 27th ult., for Boston, Mass., the former home of the latter.

Wouldn't it pay someone to keep on hand a regular supply of ice? The demand would increase with the facilities for handling it.

We were pleased to meet in our sanctum a few days since, Mr. R. C. M. Crawford, traveling agent for The Daily Union and The Florida Agriculturist.

DEATH CLAIMS TWO GREAT FRENCHMEN

PARIS, Feb. 9.—Death claimed yesterday two of the best-known men in France, Catulle-Abraham Mendes, the poet and novelist, and Ernest Alexander Honore Coquelin, known familiarly as Conquelin Cadet, one of the last of France's celebrated actors.

M. Mendes' body was found mangled in the railroad tunnel near Saint Germain, where he had fallen accidentally from a moving train.

M. Coquelin, stricken down by the news of the death of his brother, Benoit Constant Coquelin, on January 27, expired this morning in the arms of his valet.

HORRIBLE DEATH OF BROOKSVILLE BOY

BROOKSVILLE, Feb. 9.—Saturday morning about 9 o'clock, after returning from a hunt, John, the 14-year-old son of Mr. J. N. Edmondson, was instantly killed. He was sitting on a fence near his home with the shot gun in his hand, talking with a companion, when the gun slipped from his hand, and discharged its load. It struck the boy below the right shoulder, and tearing the flesh up into the neck. His head was nearly severed from the body. He died instantly.

Consumers! Take Notice!

Commencing on Friday morning, and lasting all of the day, all water consumers east of Sweetwater branch will be cut off while the force is engaged in making the connection for the new mains. All parties are requested to save all water they will need during the day.

BONNIE MELROSE.

MELROSE, Feb. 9.—The oyster supper given by Melrose Lodge, F. & A. M., is an annual event long looked for by everyone who ever attended one of the jolly occasions. This year's supper was given on Friday night at the Huffman House, and, as might be expected, was an unqualified success, thanks to the untiring efforts of the ladies who had the affair in charge. A large crowd attended and enjoyed the bountiful feast prepared. An unexpected treat was given afterwards in the hotel parlor, when Mr. and Mrs. A. E. Pearsall and J. A. Remmel entertained the guests with music, songs and recitations for over an hour, and afterwards dancing was indulged in. Jacksonville, Gainesville, Waldo, Micanopy and Orange Heights were well represented.

Mrs. J. A. Waters left Saturday for Archer. She returned Tuesday, bringing friends with her.

If you have lost or found anything do not fail to keep your eye on the classified advertising column.

Horrible Accident Results In Death of Fitz Johnson

TAMPA, Fla., Feb. 9.—The Gary settlement, just east of Ybor City, was the scene of a distressing accident Saturday afternoon, by which the life was crushed out of Fitz Johnson, collector for an Ybor City furniture house, and his body frightfully mangled. Johnson was walking along Twenty-sixth street, where the Gary extension of the Tampa Electric Company's trolley service has its track very near to the building line, and in endeavoring to avoid coming in contact with teams which were congesting on the thoroughfare, he stepped onto the track in front of a passing car, unmindful of its nearness to him, and before the motorman could apply the brakes the car struck the man, knocking him down and pasing over his body in such a manner as to cut his lower limbs into dismembered fragments, and batter his body into frightful shape.

Medical aid was quickly summoned and responded, but Johnson died within a few minutes after the accident.

He was a man 35 years of age, and left four orphaned children, who had lost heir mother only a few months ago.

Where the accident occurred there is no sidewalk, and the street cars run dangerously near to the building line of the street, and the meeting of two teams near the car treak compelled the man to take to the car track to get out of their way. The sad accident is not blamable to anyone.

Many Sleepless Nights, Owing to a Persistent Cough—Relief Found at Last.

"For several winters past my wife has been troubled with a most persistent and disagreeable cough, which invariably extended over a period of several weeks and caused her many sleepless nights," writes Will J. Hayner, editor of The Burley (Col.) Bulletin. "Various remedies were tried each year, with no beneficial results. In November last the cough again put in an appearance and my wife, acting on the suggestion of a friend, purchased a bottle of Chamberlain's Cough Remedy. The result was, indeed, marvelous. After three doses the cough entirely disappeared and has not manifested itself since." This remedy is for sale by all druggists.

Rev. J. H. Weddell of Thonotosassa, Fla., Most Excellent Grand High Priest of Royal Arch Masons of Florida, made Gainesville Chapter No. 2 an official visit the past week. He witnessed the degree work of the chapter on two prominent candidates, after which he congratulated the officers upon their proficiency. After a visit to the new temple and the State University he departed for Ocala.

Tomorrow night begins the short engagement of the celebrated John Thompson, who, in the "Funny Fellows of New York," impersonates ten different characters of as many nationalities, plays popular airs on various instruments, sings topical songs and has more fun in him to the square inch than any other man in the profession. Thompson is so well known all over the United States that the mere mention of his being here will draw the people. Be sure and not let the opportunity escape to see and hear him.

"The Late Mr. Jones" Tonight.

As this is the last chance I have to talk about the above gentleman, I know you will read this with patience.

In the first place, this comedy is a little more pretentious than "Charley's Aunt" and called for much harder work on the part of the caste.

With all the disadvantage of not being able to secure the opera house for rehearsals, the members of the caste have gone nobly ahead with the lines and worked faithfully to give a smooth performance. I never apologize for a play or player and have no intention of doing so now. I will ask, however, that our friends expect no more of us than they would of a first-class traveling company, and I promise you shall not be disappointed.

Yours for the success of "The Late Mr. Jones," THEO HUDGINS.

Noted Actress Coming.

Mrs. Katharyne M. Evans, who plays the part of "Miss Smily" with the Lyman Twins in "The Yankee Drummers" this season, is the only actress still living who played in the caste of "Our American Cousin" at Ford's Theatre, Washington, D. C., the night of the assassination of President Lincoln, April 14th, 1865, yet this remarkable woman has seen forty-two years of footlight career since that memorial event and is still hale and hearty and talks freely of the great changes that have taken place in the theatrical world since that time.

"When John Wilkes Booth jumped to the stage from the President's private box after firing the shot, caught his spur in the flag and fell, breaking his leg, we played with gas lights which were considered perfection," she said to a reporter a short time ago, "but now with electricity and its light and the many uses it is to us in our stage work, I wonder how we ever got along with coal oil lamps and gas. In those days very little scenery was ever carried even by the leading attractions and light effects and transformation scenes were never heard of."

The famous young stars, the Lyman Twin brothers, who have jumped with wonderful strides to the front rank as comedians, and who we will have the pleasure of seeing at The New Baird Theatre Friday night in their latest musical hit, "The Yankee Drummers," which is said to be one of the finest and most complete musical comedy productions of the day, are comedians in a class by themselves, and entertainers who deal out comedy lines and situations in a way seldom seen.

"The Yankee Drummers" is the most elaborate production in which they have yet appeared, carrying a large company, a dainty chorus of pretty girls, a host of funny comedians, singers and dancers, together with a beautiful array of scenic and electrical effects complete. The flirtation song, the poppy girls, and the country maidens are novelties which are original and seen only with this attraction.

Prices, 25c, 50c, 75c and $1.00. Seats on sale tomorrow.

Tuesday's Fire Alarm.

Tuesday afternoon at 3:45 the department was called to the corner of Alachua and Roper avenues by an alarm from Box 73. They responded with their usual promptness but found their services were not needed, as only some brush and grass were burning in the school yard. The Chief desires, when possible, for parties to call them over the 'phone in cases of this kind, and not to send in a general alarm, as it calls many boys unnecessarily from their duties.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

THE NEW GUN CLUB IS DOWN TO WORK

MEMBERSHIP FROM CITY COMPOSED OF BEST SHOTS.

Will Prove Great Source of Enjoyment for Members During the Dull Summer Months.

Gainesville is to again have a gun club, and while the preliminary arrangements of organizing have already been perfected the different members are active in securing new material for the club.

A special committee has been selected by Dr. J. H. Alderman, president of the club, who will look out for this new material to come into the club, which is now fully organized.

Already some letters have been turned over to the club from other places inviting them to participate in a shoot, and probably the club will have become proficient enough to engage in the first one, which will occur at Leesburg sometime during March.

The membership comprising the club is composed of some of the leading citizens of the city, and while there are a large number of expert shots among the list there are many who are only moderate marksmen and simply joined to lend enthusiasm and at the same time have the opportunity to use the club at any time they desire.

There will be no monthly dues, but a certain sum will be paid into the club on joining, and this is supposed to run the expenses for one year, which will be repeated annually, and allow them money in the treasury at all times.

It is proposed to have two good squads from the club, which will keep interest up at all times, and especially during the weary summer months.

There were two cases before Justice of the Peace Carlisle on Tuesday, which he disposed of with his usual promptness, administering justice to the couple arraigned.

John Wilson became involved on Saturday night with his wife and was let off with $10 and costs, but his attorney took an appeal and his case will be heard before the circuit court.

Mr. Thrower has for some time been a resident of Gainesville and held the responsible position as traveling salesman for the Baird Hardware Company.

The bride is one of the charming young belles of Orlando and quite a social favorite, and will prove quite an addition to the social circles of the city.

DAUGHTREY MAKES GOOD F. O. B. SALE

SELLS THREE HUNDRED BASKETS LETTUCE FOR $900.

Is One of the Leading Truckers and Always Makes a Good Haul on Lettuce.

Alex Daughtrey, who farms at Rocky Point but lives in this city, is among the most successful farmers in this section.

On Saturday he closed a deal for three hundred crates of lettuce at $3 per basket f. o. b. Rocky Point, which is only a small part of what he has to offer. He was among the first growers here to use canvas and has never failed to come out ahead on this protected article.

It is understood that the buyer wanted all Mr. Daughtrey had, but he would not consent to sell him the entire crop.

Prices for lettuce are still advancing daily, but the growers around here think it will drop within about ten days, as they figure that a large part of the young lettuce that was unprotected will grow out of its sickly condition within that time and the outdoor people will be shipping along with the canvas article.

Stop Women And Consider

This Fact—that in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers twenty-five years.

The present Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, was for years under her direction, and has ever since her decease continued to advise women.

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance, but a natural modesty causes them to shrink from exposing themselves to the questions and probable examinations of even their family physician. Such questioning and examination is unnecessary. Without cost you can consult a woman whose knowledge from actual experience is great.

MRS. PINKHAM'S STANDING INVITATION:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; thus has been established this confidence between Mrs. Pinkham and the women of America which has never been broken. Never has she published a testimonial or used a letter without the written consent of the writer, and never has the company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

The Gazette remarks: "Of course this has been an exceptional season for this vegetable, but to say that the sum of $1,000 can be made on less than an acre of ground is almost unbelieveable, especially when that amount is realized from one crop alone, when it is possible to grow at least two more if not three crops from the same soil in one year's time."

WHEEZER OR SNEEZER?

Have You Heard of Hyomei for Catarrh, Asthma and Hay Fever.

If you wheeze or sneeze, hawk or spit, snuffle or blow, something is the matter with the membrane of your respiratory tract, and you need Hyomei.

And you need Hyomei because it will cure you of any catarrhal or inflammatory condition that exists.

It isn't a stomach medicine, or spray, or douche, but a very pleasant, healing, antiseptic balsam, from the eucalyptus forests of Australia. You breathe this balsam air through a small, hardy rubber inhaler, and it reaches every nook, corner and crevice of the membrane, and promptly kills the catarrh germs.

J. W. McCollum & Co. will sell you a complete Hyomei (pronounced High-o-me) outfit for $1.00, on the money-back plan.

"The use of Hyomei cured Mr. Cutler of catarrh in 1904. He has strongly endorsed the use of Hyomei in many instances, and we are glad to go on record regarding this marvelous catarrh cure and endorsing its use."—Mrs. A. Cutler, 201 Post avenue, Battle Creek, Mich., Oct. 12, 1908.

CUTICURA CURED CHIEF OF POLICE

Canadian Officer Poisoned by Weeds —Eczema Developed and Legs Became Scaly—Ankles were Very Sore and Itchy — For Weeks He Could Not Wear Shoes.

FREED FROM ITCHING BY CUTICURA REMEDIES

"I have been successfully cured of dry eczema. I was inspecting the removal of noxious weeds, it being part of my duty, from the edge of a river and was constantly in the dust from the weeds. At night I shook out my trousers and cleansed my limbs, but felt a prickly sensation. I paid no attention to it for two years, but I noticed a scum on my legs like fish scales. I could scrape it off, and yet I did not attend to it until it came to be too itchy and sore and began getting two running sores. My ankles were all sore and scabby and I could not wear shoes. I had to use carpet and felt slippers for weeks. I was then on particular police duty and was compelled to be on duty. I got a cake of the Cuticura Soap and some Cuticura Ointment. In less than ten days I could put on my boots and in less than three weeks, though on duty all the time, I was free from the confounded itching. I tell you frankly that Cuticura saved me from what the doctors called a bad leg. Capt. George P. Bliss, Chief of Police, Morris, Manitoba, Mar. 20, 1907, and Sept. 24, 1908."

WORK COMMENCES ON NEW MAINS FRIDAY

EAST GAINESVILLE WILL BE DEPRIVED OF WATER THAT DAY.

Work to Be Completed as Fast as Possible, as Large Force Will Be at Work.

Beginning next Friday the work of putting in the extension of the new water mains for certain sections of East Gainesville will commence.

Superintendent Miller of the water works gives notice elsewhere today that all consumers will be deprived of water in that part of town during the entire day, or as long as it is necessary to put in sufficient connections for running the new line.

When this work will have been completed it will afford a large part of that section of the city fire protection and city water on their premises, which they have been deprived of for these many months, and will make real estate in that section more desirable.

The work of putting in this new line will require some time, but it will be pushed as fast as a large force can handle it, and the superintendent hopes to have it done without delay.

C. R. Kluger, the jeweler, 1060 Virginia avenue, Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." Judge A. O. Wright of Jacksonville, who has been lecturing at different points in the State on the Confederate Navy, is one of the best-posted men in the South on the subject he has taken for his lecture. It is to be hoped that he will deliver his lecture in Gainesville at some future date.

The making public of the large sums paid Ex-Governor Jennings during the past two years as attorney for the trustees of the Internal Improvement Fund has caused unfavorable comment by the State press generally. The Dunnellon Advocate, however, refers to such comments as "hot air," and says if Jennings had not earned the money paid him an investigation would have been made. Will Editor Peacock kindly inform the public what opportunity there has been for an investigation of the matter? No one blames Mr. Jennings for accepting the money, but the trustees are blamed for employing counsel at such a price when it was the business of the Attorney-General to have attended to the legal affairs of the trustees.

The need of afforestation and reforestation is so pressing in well nigh every country that Governments are taking immediate and thorough action to meet it. In fact some governments, especially those of France, Germany and Japan, began years ago, and are reaping their reward in the new and splendid forests rapidly growing to maturity. This country is now fairly awake to the need, and over in Great Britain they are about to commence the planting of some 9,000,000 acres of poor pasture land. The plan is to plant 150,000 acres annually in the winter months, whereby some 18,000 men will be given temporary employment at a most needful time. To do this work some $12,000,000 will be spent annually. At the end of eighty years it is estimated that the property thus afforested will be worth to the State something like $2,800,000,000.

There is a rapidly growing sentiment all over the country in favor of beautifying school grounds. Where it has been done with any regard to taste and system the results have been most satisfactory. There is everything to be said in its favor. There is no merit, quite the reverse, in having dilapidated buildings, and grounds covered with tall grass and weeds. The effect of such a condition upon the children or district is anything but good. That being so it naturally follows that when this condition is changed so that the grounds and buildings are pleasing to the eye by reason of their neat and attractive appearance a justifiable pride is aroused, and with it many other good things. Some leadership and ambition, a needed amount of labor and a small outlay of money, are sufficient with good taste to turn almost any eyesore into that which is pleasing and beneficial.

CURRENT COMMENT

The Birmingham News says: "It appears that the visit of President-elect Taft to Panama set at rest for at least a while those multitudinous and largely groundless reports about the danger of the canal from the Gatun dam. Most of the rumors that are spread about the canal are originated by people who don't know anything about the subject, for political purposes only."

The Baltimore Sun says: "One thing is absolutely certain. The solid South will never be broken as long as the Republican party insults it by such appointments as that of Crum. If the Republican Senators wish to promote Mr. Taft's political missionary work in the South the wise thing for them to do is to refuse to confirm Crum's appointment and leave Mr. Taft to fill the collectorship at Charleston."

The Charleston News and Courier says: "Only twenty-six days more, thank Heaven! or 624 hours, or 37,440 minutes, or 2,246,400 seconds, or about nine working days of eight hours each, and there will be an end of the fearful test to which the American people have been subjected for more than seven years. That they have stood it, or any considerable part of it, without violent disturbance is the highest tribute that could be paid to the conservative character of our institutions. And the Star-spangled Banner, oh! long may she wave."

The Birmingham Age-Herald says: "Congress lacks the power to establish standard grades of cotton in all the cotton ports of the world, but it can start the reform and then by example and influence this Government can perhaps induce all others to accept its standard grades of cotton. The reform has been started, and if the work of the experts at Washington be satisfactory, the grades established in the country that produces the chief commercial crop of the world will no doubt be accepted in all markets in which American cotton is handled."

The New York Evening Post says: "Whatever the motives prompting Congress to vote $500,000 for the development of military flying machines, the act may have important consequences. The amazing progress of the past five years in aerial navigation promises things that, but the other day, were wild dreams, and, even now, seem extravagant when set down in cold type. We cannot think out the possibilities of a perfect dirigible war balloon without realizing, long before the end of the story is reached, that, in the presence of such an instrument, a regiment will be as a swarm of caterpillars, and a Dreadnought no more dangerous than a mud turtle. The perfect warship of the sky is not yet; but she is as nearly in sight as 25,000-ton Dreadnoughts were ten years ago. Were our Government to offer a prize of $500,000 for a perfect aerial fighting machine, the naval budget and the exhuming of fossils from the Navy Department might, in another twenty years, give us no more concern than the pensions for Mexican War veterans."

If Enrico Caruso, the celebrated Italian opera star, were no better as a singer than he seems to be as a man he would not be able to earn more than a day laborer. Having in mind his monkey house episode and "soul-mate" busines it would seem that he might with advantage spend some time in trying to get his character up to the level of his voice. One trouble with such men is that they insist they are not to be judged by the same moral standard by which others are measured, and there are people foolish enough to agree with them.

Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

The shipbuilding industry in England has been greatly depressed on account of the strikes which have lasted for several months. An agreement has now been ratified between employer and men by which the strike will end and the relation between the two parties put upon a satisfactory basis. Under the arrangement no small union can create a strike, and all questions arising will be thoroughly and amicably discussed by the representatives of employers and unions and every possible plan adopted to prevent a strike or lock-out. The agreement will probably have far-reaching consequences on labor and capital elsewhere.

"The captain of the battleship Georgia," says The Baltimore Sun, "is hardly to be blamed for a little indulgence as he hits the last station of an around-the-world cruise and is practically within sight of the home shore. Maybe that was considered in the sentence imposed by the court-martial, which, after finding him guilty of the charge of intoxication, gave him a suspension of six months and a loss of ten numbers. They might have sent him to the State for which his ship was named to learn abstinence under a prohibition regime."

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

DIGNITY OF OWNERSHIP.

The Feeling of Pride That Is Born of Paying Taxes.

"Many a time," said a policeman in the southern part of the city, "when arresting men, especially intoxicated men, I have been told by my prisoner that he was a taxpayer and that he helped pay my wages.

"I always regarded this sort of back talk as merely drunken insolence and never paid much attention to it until about a year ago, when I bought a home and lot and became myself a taxpayer. I had always rented before and never gave a thought to taxes, but as soon as I moved into my own home I began to appreciate the feelings of men who resented arrest because they paid taxes.

"There is certainly a considerable addition to the dignity of the man who helps support the government. He feels a degree of responsibility that a renter or roomer never understands. And my idea is that every man in the country ought to become a taxpayer as soon as he can. And the mere fact that he does help support the government and bears his share of the expense makes him a better citizen. Habitual criminals are rarely taxpayers. They know they may have to run any day and perhaps never come back. So they do not buy real estate, but are renters and lodgers all their lives."—St. Louis Globe-Democrat.

A WHISTLER DINNER.

Sealing Wax Played an Important Part at the Banquet.

In the Pennells' "Life of James MacNeill Whistler" is the story of a dinner given by the eccentric artist, in which he was assisted by Mr. Ionides, who describes the banquet:

"I remember calling one early afternoon, when Jimmy was busy putting things straight. He asked me if I had any money. I told him I had 12 shillings. He said that was enough. We went out together, and he bought three chairs at two and sixpence each and three bottles of claret at eighteenpence each and three sticks of sealing wax of different colors at twopence each. On our return he sealed the top of each bottle with a different colored wax. He then told me he expected a possible buyer to dinner and two other friends. When we had taken our seats at the table he very solemnly told the maid to go down and bring up a bottle of wine, one of those with the red seal. The maid could hardly suppress a grin, but I alone saw it. Then, after the meat, he told her to fetch a bottle with the blue seal, and with dessert the one with the yellow seal was brought, and all were drunk in perfect innocence and delight. He sold his picture, and he said he was sure the sealing wax had done it."

Six Nights "Go as You Please" Race.

How many tired fathers and mothers in this town enter this race every night carrying a baby? And they wonder what the matter is. Chances are the child is starving—worms are eating all of its food. Most children have worms—yours needn't. White's Cream Vermifuge will get rid of the worms and strengthen the child. Price 35 cents per bottle. Sold by W. M. Johnson.

Weak Little Boys

may become fine strong men. Some of the strong men of to-day were sickly boys years ago. Many of them received

Scott's Emulsion

at their mother's knee. This had a power in it that changed them from weak, delicate boys into strong, robust boys.

It has the same power to-day. Boys and girls who are pale and weak get food and energy out of *Scott's Emulsion*. It makes children grow.

The Birds' Nests That Men Eat.

The swifts arrive in the Andaman islands toward the end of November, but they take their time in building the nests, which are formed from a gelatinous secretion from the salivary glands of those beautiful members of the swallow tribe. If there has been a wet December, the first crop of nests is generally a poor one, being soiled by the damp and drippings from the roofs of the caves. Collectors, however, begin in January to go around the island to the different caves in an open boat. The best quality resemble pure isinglass and are worth their weight in silver. Afterward there are two other collections. The caves in which the nests are found are scattered about the islands. Some are far inland, others in rocks concealed in mangrove swamps.—London News.

Strategy.

Rodrick—Great Scott! Has Bilkins lost his mind?

Van Albert—I don't think so. Why?

Rodrick—Just look at the illumination in his house. He has had every gas jet burning all day long.

Van Albert—Oh, that's just a little scheme Bilkins has to increase his gas bill this month. His wife is coming back to-morrow, and he told her he had been remaining at home and reading every night since she went away. If she looked at the gas bill and found it to be only 32 cents, he would be cornered for an explanation.—Chicago News.

THE PARANOIAC.

Queer Delusions That Come With This Curious Mental Disease.

"That curious form of mental disease known as paranoia is seldom or ever cured," said a noted Chicago alienist.

"A paranoiac may be able to transact business with a fair degree of efficiency, but, as a rule, few of this class can be made to stick to work, as the nature of the malady prevents concentration of mind. One so possessed is afflicted with strange delusions, especially with the notion that he is being persecuted. Many an individual who is denominated a crank has paranoia. In general these unfortunates are misanthropic, have no social intercourse with their fellows and are brooding and introspective. Very often their mania leads them to the notion that they have been born to lead mankind in a religious way, and they proclaim themselves prophets of God. Quite often, too, they are discoverers of some wonderful invention that will astonish the world.

"It was a paranoiac who followed the great actress Mary Anderson from place to place, declaring himself her favored suitor and threatening to kill any man who sought her company. These threats were what led to the locking up of the demented creature, and I believe he finally shot one of the asylum attendants. Paranoiacs very frequently develop homicidal tendencies, and it is prudent to watch them at all times."—Baltimore American.

A HARD STRUGGLE

Many a Gainesville Citizen Finds the Struggle Hard.

With a back constantly aching,
With distressing urinary disorders,
Daily existence is but a struggle.
No need to keep it up.
Doan's Kidney Pills will cure you.

Gainesville people endorse this claim:

Mrs. Eliz. Ratherree, 201 W. McCormick street, Gainesville, Fla., says: "For years I suffered from dragging pains in my back, often so severely that I could not move. The secretions from my kidneys were also irregular in passage and caused me further annoyance. Any cold I contracted aggravated my trouble and at such times I was in misery. A friend finally advised me to try Doan's Kidney Pills and I did so. The first few doses gave me relief and when I had taken the contents of one box, the pains disappeared and my kidneys became normal. Doan's Kidney Pills cured me and I am glad to give them the credit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Not a Matter of Chance.

The Vicar—Is it true, Samuel, that your father allows games of chance to be played in your house? The Boy—There ain't no chance about it, sur; they all cheats!—London Opinion.
